BRIEF SUMMARY

I am a Computer Science Engineering student with a strong foundation in both theoretical concepts and practical application of technology. My academic journey has equipped me with proficiency in core programming languages such as C++, Java, HTML, CSS, and JavaScript, allowing me to build responsive and engaging front-end projects. I have developed various web-based applications during my coursework and internship experiences, enhancing my ability to design and implement user-focused digital solutions.

Beyond technical expertise, I take pride in my problem-solving capabilities and logical reasoning skills, which I apply consistently in coding challenges and collaborative projects. I possess excellent communication skills that enable me to work effectively within diverse teams, and I actively contribute to idea sharing and project coordination. Serving as the Class Representative, I have honed my leadership abilities, organizing academic activities and serving as a liaison between students and faculty.

My passion for technology, coupled with a strong work ethic, drives me to continuously learn and grow in the ever-evolving tech landscape. I am a focused, adaptable, and reliable individual who thrives in both team-based and independent environments. With a positive outlook and a commitment to excellence, I aim to contribute meaningfully to every opportunity I undertake.

KEY EXPERTISE

Artificial Intelligence   C++   python   java   Cyber security   Front-End Web Development   Leadership   Communications   Problem Solving   HTML   CSS   Javascript

EDUCATION

Guru Tegh Bahadur Institute of Technology   2022 - 2026
B.Tech. - Computer Science & Engineering | Percentage: **84.63 / 100**

Mata Jai Kaur Pubic School, North Delhi   2022
12th | CBSE | Percentage: **88 / 100**

Mata Jai Kaur Public School, North Delhi   2020
10th | CBSE | Percentage: **90 / 100**

INTERNSHIPS

CODSOFT | Core Engineering   01 Apr, 2025 - 30 Apr, 2025
Web Developer

Key Skills: Javascript   CSS   HTML

During my internship as a Computer Science student, I worked extensively on front-end web development projects, focusing on building interactive and responsive websites using HTML, CSS, and JavaScript. I was involved in creating structured layouts, styling web components, and implementing client-side scripts to enhance user engagement. This experience allowed me to strengthen my understanding of core web technologies and apply programming concepts in real-time scenarios.

Through this internship, I also developed essential skills in debugging, code optimization, and ensuring cross-browser compatibility. Collaborating with team members helped me understand professional development workflows, version control using Git, and the importance of writing clean, maintainable code. This hands-on experience significantly contributed to my growth as a web developer and reinforced my passion for front-end development within the broader field of Computer Science.

Acmegrade | Cyber Security   15 Aug, 2024 - 15 Oct, 2024
Cyber Security Analyst

Key Skills: cyber security   problem solving   Data Security   Malware Analysis   Team Leadership

As a Cyber Security Analyst, I played a pivotal role in enhancing data security within an organization by identifying vulnerabilities and implementing robust solutions to safeguard sensitive information. I worked closely with cross-functional teams to design and enforce security policies, ensuring the integrity, confidentiality, and availability of data across various platforms.

Learnex | Core Engineering   23 May, 2024 - 25 Jul, 2024
Artificial Intelligence Engineer

Key Skills: Artificial Intelligence   Problem Solving   Models   predictions   Leadership   python   machine learning

As an AI Engineer, I played an integral role in developing and optimizing machine learning models to predict key business outcomes. By leveraging advanced algorithms and statistical techniques, I was responsible for designing and implementing predictive models that enhanced decision-making and drove actionable insights.

EXTRA CURRICULAR ACTIVITIES

- Rangoli competition

PERSONAL INTERESTS / HOBBIES

- Reading Books
- Learning New languages
- Travelling and exploring

WEB LINKS / IMs
